

Low Associates Windows Investment System

Since 1975, Low Associates has provided the most comprehensible and affordable software available.

From Networks to Single-User Systems, our Quality, and Customer Support are Unmatched!

- ☞ Calculates interest based by maturity date and rate entered for the associated investment.
- ☞ Upon maturity or redemption/sold date, actual interest values earned can manually be entered within the distributions tab grid
- ☞ Specify your own investment descriptions for easy tracking
- ☞ Customizable grids and filtering functions

- ☞ Application Security can be setup by individual user or groups.
- ☞ Reports available for all or selected Banks and Funds by date span
- ☞ Investment status report shows all outstanding active investments

The Low Associates Financial series of software products uses the latest Microsoft Windows client/server environment. Using an industry standard SQL compatible relational database, these products are all integrated and offer the latest in programming techniques and standards
